

NEWS RELEASE

WINNER OF THE BILLION DOLLAR CLUB AWARDS 2025

Singapore, 7 November 2025 – Mainboard-listed Bumitama Agri Ltd. (“Bumitama”) is proud to announce that it has once again been recognized at The Edge Singapore Billion Dollar Club Awards 2025, securing two distinguished accolades under the Consumer Defensive industry — Highest Returns to Shareholders Over Three Years and Overall Sector Winner

This consecutive recognition reflects Bumitama’s continued ability to deliver strong financial performance, sustained profitability, and responsible growth amid dynamic market conditions. It underscores the company’s disciplined approach to long-term value creation, combining operational excellence with sustainability-driven innovation.

This year’s recognition by The Edge Singapore Billion Dollar Club highlights Bumitama’s exceptional performance over the three years ending in 2024, during which the company consistently delivered strong returns to shareholders and maintained sector-leading profitability. For the year ended 2024, Bumitama achieved revenue of IDR 16.73 trillion and a net profit* of IDR 2.29 trillion, marking one of its strongest performances in history. Free cash flow rose by 31.5% to IDR 2.76 trillion, reflecting disciplined operational and capital efficiency, while the net gearing ratio declined further to 0.09X, underscoring the Group’s strong balance sheet and prudent financial management.

Bumitama’s success continues to be guided by its long-standing principle of “Excellence Through Discipline.” The Group’s focus on precision agronomy, mechanization, and circular operational systems has enabled it to maintain stable productivity and efficiency even under challenging weather conditions. Strategic initiatives such as the expansion of biogas energy facilities and the adoption of biochar technology have further strengthened Bumitama’s position as a cost-efficient, low-carbon producer.

Sustainability remains central to Bumitama’s growth model. The Group manages over 36,000 hectares of conservation areas, implements polygon-based traceability across more than 92.5% of its supply chain, and continues to invest in community empowerment programs such as Sekolah Desa Berdaya, which promotes smallholder productivity, entrepreneurship, and low-carbon village development. These efforts reinforce Bumitama’s commitment to the Environmental, Social, and Governance (ESG) principles that underpin its long-term value creation.

The recognition by The Edge Singapore Billion Dollar Club further affirms Bumitama’s leadership within its sector and its resilience amid evolving global regulations and sustainability expectations. As the company moves forward, it remains focused on enhancing productivity, maintaining strong governance, and creating inclusive growth that benefits both shareholders and surrounding communities.

About Bumitama Agri

Bumitama Agri Ltd. (“Bumitama” or the “Group”) is one of the leading producers of crude palm oil (“CPO”) and palm kernel (“PK”). The Group is primarily engaged in the cultivation of oil palm and the processing of fresh fruit bunches (“FFB”) into CPO and PK. Established in 1996 and listed on the Singapore Exchange in 2012, Bumitama has steadily expanded its operations across key regions in Indonesia.

As of the end of 2024, the Group manages close to 190,000 hectares of oil palm plantations, with nearly 30% developed in partnership with smallholders. Bumitama operates 17 palm oil mills with a total annual processing capacity of 6.99 million metric tonnes. With a weighted average plantation age of 13.8 years, the Group is well-positioned to sustain long-term growth in production volumes.
